Testimonials from around the world:

Here's what graduates of this course have to say about its impact on their lives and work:

"Life has not been the same since this course - when I evoke the power of it, it's instant and effective. When speaking with friends about who I am and what I'm up to now, there is clarity, cohesion and a new recognition. I feel that I've just begun to live. WOW! There is a new and more powerful expression that my clients comment on and I'm so excited to incorporate this into my coaching."

Andriana Natterer, coach / trainer in Australia

"Being from a corporate background I was quite sceptical of what Evolutionary Leadership and Coaching could offer. Well a month down the track all I can say is that I am buzzing non stop, feeling connected, constantly growing and energized. For over 5 years now I have been on a path of leading businesses with a different style of leadership, a path were people can be themselves and empowered. At this course, I had the unique experience of seeing people intentionally stepping into a bigger 'being', surrendering and committing themselves to a better and brighter world. I would like to thank you for having lifted me to the next level of leadership where 'being' and 'potential' are present in my life every day. I can not wait to deliver to the business world this new visionary ability that you have nurtured in me."

Tim Laporte, business executive in Australia

"The Evolutionary Coaching & Visionary Leadership Training is a startling course to attend. It has impacted me hugely, both personally and professionally. Come with an open mind, play, explore, laugh and enjoy the amazing group environment. You will learn a great deal about yourself and it will impact the way in which you work with individuals and create a new future. An experience that will continue to influence me in immeasurable ways into the future."

Sue Ingram, business coach / trainer in the UK

"Wow – I am seeing such glorious expansion everywhere. My coaching clients are having breakthrough after breakthrough and are so ready to stand up for their new way of being. "Team" clients are going to wonderful places. A client called, said he ran into another client of mine and asked how their team session with me went and she said "Judi is magical" – isn't that cool?"
